PROFESSIONAL SUMMARY

Senior Full-Stack and Backend Web Developer with 8+ years of experience building, scaling, and maintaining production web applications. Specialised in Python (Django, FastAPI) and PHP (Laravel), with proven results designing REST APIs, optimising backend performance, and deploying cloud-based systems with Docker and Kubernetes. Track record of owning features end-to-end and delivering measurable business impact across e-commerce, real estate, and real-time streaming platforms.

TECHNICAL SKILLS

Languages: Python, PHP, JavaScript, TypeScript, SQL, HTML, CSS/SASS

Backend & Frameworks: Django, FastAPI, Laravel, Node.js, REST APIs, WebSockets

Frontend: React, Next.js, Vue.js, responsive UI development

Databases: PostgreSQL, MySQL, Redis, Elasticsearch

Cloud & DevOps: Docker, Kubernetes, AWS, VPS deployment, CI/CD

Other: RTMP streaming, third-party API integration, Technical SEO, performance optimisation

PROFESSIONAL EXPERIENCE

Senior System Integration Engineer

2026 - Present

Opera Beds - United Kingdom

- Design and build system integrations connecting core business platforms (ERP, CRM, e-commerce, and middleware), ensuring reliable data flow across the stack.
- Develop and maintain backend services and data pipelines that support integration workflows and business operations.
- Automate manual business processes between platforms, reducing operational overhead and eliminating repetitive data entry.
- Collaborate cross-functionally to translate operational requirements into stable, maintainable integration solutions.

Software Engineer

Nov 2024 - 2026

Offsure / WebIt - Remote (Australia)

- Developed and enhanced backend features for client-facing web applications based on business requirements, working across Python/Django and React stacks.
- Designed and implemented a scalable API integration for real-estate listing management that improved data-retrieval speed by 30% and reduced operational overhead for client companies.
- Integrated multiple third-party APIs, improving overall data-retrieval performance by ~30%.
- Reviewed peer code to improve readability, maintainability, and scalability across the team.

Web Developer

2023

Market Role Asia Pacific Inc. - Nacomex Live

- Designed and deployed a scalable RTMP live-streaming infrastructure using Docker and Kubernetes on VPS cloud servers, with Kubernetes load balancing for concurrent-user scale.
- Implemented Laravel WebSocket servers for real-time chat, enabling interactive live-stream user engagement.
- Improved platform reliability and scalability under high concurrent user load.
- Built and maintained company news sites (Golasa.co.com, Futbolfantastico.com) in WordPress with custom plugins, reaching 1.1k organic visits within the first month.

Search Optimization & Automation Engineer

2022 - 2023

Majorel - Microsoft Advertising (Client)

- Achieved a 25% increase in client conversion rates through strategic keyword targeting and data-driven ad-campaign optimisation for Microsoft Advertising clients.
- Supported new advertisers in optimising accounts for maximum conversions and customer reach.
- Automated the case-noting process so any advocate could instantly see a customer's prior issue history, reducing resolution time on repeat contacts.
- Consistently exceeded performance metrics from the first month of employment, earning performance incentives.

Web Developer

Feb 2018 - Apr 2020

Woebisoft Innovative Solutions

- Built backend features for outsourced client web applications alongside a team of developers.
- Developed an e-commerce website for a local company, handling both build and delivery.
- Collaborated with other programmers across multiple concurrent client projects.

Freelance Web Developer

Jan 2017 - Jul 2018

Self-Employed

- Built a computer-vision parking-analysis system in Python/Django with TensorFlow that detected open parking spaces and relayed availability to drivers' mobile devices.
- Developed and launched cacaolavezares.com, an e-commerce site for a local chocolate brand.
- Created point-of-sale and inventory-management applications for local businesses.

EDUCATION

Tarlac State University - *BS Computer Science*

2019 - 2022

AMA Computer College - *Senior High School*

2017 - 2019

ICT Colleges - *Technical Vocational Course (NC II)*

2017 - 2019
